Working Capital for the Finishing Plant

File No. 91 of 1931. | General and Revenue Secretariat

Sanctioned for the Weaving Section, paying them an allowance of Rs. 25/- and 40/- respectively on account of the additional duties involved. It is stated that the Office establishment should be common to both the Weaving and Dyeing Sections; in this case it is not clear why separate allowances in the two persons only are recommended. The Director's proposal to debit a part of the expenditure to the Weaving Section and the other part to the Finishing Section is for approval.

A Sum of Rs. 42,250/- was sanctioned as working Capital for the Weaving Section for 7 months and a Sum of Rs. 30,610/- is required as working capital for the next year for the Finishing and Dyeing Section. A Sum of Rs. 30,000/- is provided in the next year's budget and the Dir. of Ind. sanction this sum being placed at his disposal. The I/C Member has ordered in the Budget file (Loans and Advances) as follows:- "Rs. 30,000/- may be provided. The Dir. may be told not to operate on the grant before getting sanction to a detailed estimate of working charges of this branch of the Concern."

It is ascertained by telephone that this reference is sanctd in pursuance of instructions conveyed thro' this Dir. in accordance with the Members minute dated and are based upon the notes 1&2 - 23-VI-32

1 On 20 & 29-11-31 a sum of Rs 44,000 was sanctioned for working capital for the Weaving Section of the Silk Factory and the amount was placed at the Director's disposal.

2 Now that the Dyeing and finishing Section is ready for work, the Director has sought sanction for a working advance of Rs 30,000. The provision is included in the next year's budget but the Director was asked not to operate it until details were approved.

3 He has now sent up the details which may be approved. The establishment proposed does not perhaps permit of reduction. The Rates shown are only Estimates.

10 I have no objection to the proposal to place a sum of Rs. 30000 at the disposal of the Director as working capital of the Dyeing & Finishing Section of the Factory. But it is necessary that provision must be made in the Revenue budget to this end the loss of Rs 18000 expected from the working of this section, unless it can be made up fully out of the rich receipts of the Weaving Section.

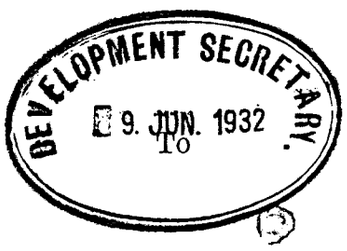
OFFICE OF THE DIRECTOR,

Dated, Bangalore, 6th June, 1932.

FROM

N. RAMA RAO, Esq., B.A., B.L.,
Director of Industries and Commerce in Mysore,
Bangalore,



To

B.T. Kesaviengar, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

I have the honour to state that the erection of the machinery of the Dyeing and Finishing Section of the Silk Weaving Factory at Mysore has been completed and work has been started in the Section from 1st June 1932. I enclose a statement showing the expenditure estimated to be incurred in the section during the first year. This estimate is based on the assumption that during this period the operations of the section will be practically restricted to the output of the ten looms installed in the Weaving Section. The total estimated expenditure amounts to Rs.30,610/-. A sum of Rs.30,000/- (required as working capital for this section) has been provided in the Budget Estimates for the next year. I request that the early orders of Government may be kindly obtained authorising the Comptroller to place the sum of Rs.30,000/- provided in the Budget at my disposal, as the Factory has actually started work, and is in immediate need of funds. The receipts during the first year are estimated at Rs.12,000/- as detailed below:-

App. H. page 207.

(1)	Dyeing & Finishing Charges for piece Dyeing to be recovered from the Weaving Section ..	Rs.9,000/-
(2)	Probable receipts from Hank Dyeing for private people	Rs. 500/-
(3)	Steam and Water charges to be recovered from the Weaving and Filature sections ..	Rs.2,500/-
	Total ..	Rs.12,000/-

The operations during the year are thus expected to result in a

a loss of about Rs.18,000/-, and this is due to the fact that the Dyeing & Finishing section plant which is capable of dealing with the production of about 70 looms will, during the first year, be working only at a seventh of its capacity, while the operations necessitate employment of full staff, and the only saving possible is in dye stuffs, and to some extent in power and steam. As work increases, either by receipt of dyeing orders from outside or by the expansion of our own Weaving Factory, the loss is sure to disappear, and to be replaced by a profit in course of time. Our plant is believed to be the smallest-sized one made for these processes, and the capacity though now only partially utilised, is not more than may suffice for the service of the weaving industry in Mysore. ~~in a short time~~ It is hoped that its capacity will be fully utilised in a short time. It will be seen that the loss in the initial stages is inevitable; but it is bound to be eliminated in course of time, and no effort will be spared to make this time as short as possible.

I enclose a statement showing the staff required for carrying on the operations of the section. The cost of the Labour in the Works Section amounts to Rs.302/- per month or Rs.3,624/- per year and it is not possible to reduce this expenditure further with due regard to efficiency of work. The office establishment will be common to both the Weaving and Dyeing sections. It will be necessary to have one Storekeeper on Rs.40/- and one Typist on Rs.30/- in addition to the existing Accountant of the Weaving Section on Rs.60/- in grade Rs.45-3-60 who will also be given an allowance of Rs.25/- per month on account of the additional duties devolved on him. The salary of this staff will be distributed in equal proportions between the Weaving and the Dyeing Sections. Two peons and one watchman on Rs.11/- each are required entirely for the Dyeing & Finishing section. In regard to the mechanical staff it will be necessary to have one Fireman on Rs.40/- and one Driver on Rs.20/-. Half of the pay of the Fireman will be debited to the Filature and the post of the Fireman in the Filature on Rs.20/- will be abolished. The Assistant Mechanic working in the Weaving Section on Rs.40/- will be

8 JUNE 1932
No. 8082

be given an additional allowance of Rs.40/- for looking after the work in the Dyeing and Finishing Section also. The allowance proposed to the Mechanic is necessary in view of the fact that he will have to attend to very heavy and important work in the Factory being in charge of all the machines working there. I beg to state that in preparing these estimates, I have been keenly alive to the fact that this section has to work at a loss to start with, and that I have exercised the utmost care to cut down expenditure ~~bare~~ to the bare minimum necessary. I beg, therefore, that the sanction of Government may kindly be obtained to the entertainment of the staff proposed in the enclosed statement.

I have the honour to be,
Sir,
Your most obedient servant,

T Ramma Rao

for DIRECTOR. ~~of Textiles~~
Mills ~~Madras~~.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read:--

Government Order No. D. 2579-80/ I & C. 82-29, dated 2nd September 1930, approving of the proposal of the Director of Industries and Commerce in Mysore, for installing a Weaving demonstration plant for the manufacture of high class silk fabrics out of the silk produced in the Mysore Silk filature.

2. Government Order No. D. 2403-4/Seri. 43-31-2, dated 19th November 1931, sanctioning a sum of Rs. 44,000/- as working capital for the Weaving Section of the Factory.

3. Letter No. D.4. 1199-28, dated 9th June 1932, from the Director of Industries and Commerce in Mysore, submitting for approval a scale of establishment and other items of expenditure required for working the Finishing and Dyeing Section of the Factory, and requesting that the Comptroller may be authorised to place at his disposal the sum of Rs. 30,000/- provided in the Budget for 1932-33 under "Advances to Mysore Silk Weaving Factory. (App.H.)

Order No. D. 27-28/ Seri. 91-31-2

Bangalore, dated the 1st 2nd July 1932.

The Director reports that the erection of the Machinery of the Dyeing and Finishing Sections of the Silk Weaving Factory has been completed and work started therein from 1st June 1932. He has now submitted proposals for working the section. The main features of the proposal are as follows:-

Staff.

	1 Storekeeper.	on	Rs. 40/- per mensem.
	1 Typist.	on	Rs. 30/- per mensem.
	2 peons	on	Rs. 11/- each ,,
	1 Watchman	on	Rs. 11/-
	1 Fireman	on	Rs. 40/-
and	1 Driver.	on	Rs. 20/-

Labour.

Two literate men for grey room and colour dissolving room on Rs. 20/- each.	Rs. 40/-

Six men for Boiling and Dyeing rooms on Rs. 15/- each.	Rs. 90/-
Seven men for dyeing room, Hydro-extractor, Stenter, Calendar etc., on Rs. 12/- each.	Rs. 84/-
Four women for grey room, packing and hand plating on Rs. 10/- each.	Rs. 40/-
Four men for gas plant, boiler etc., on Rs. 12/- each.	Rs. 48/-

The Director proposes to utilise the services of the Accountant and Assistant Mechanic sanctioned for the Weaving section in the Dyeing and Finishing section also, paying them an allowance of Rs. 25/- and Rs. 40/- respectively on account of the additional duties involved. It is also proposed to debit a part of the expenditure on establishment of the Weaving section and the other part to the Dyeing and Finishing section and the Filature as indicated in the appended statement. The above estimates are submitted on the assumption that the operations of the sections will be restricted to the out-put of the ten looms now installed in the Weaving section.

Government have considered the proposals of the Director and are pleased to sanction the entertainment of the staff and their allocation as detailed above. A sum of Rs. 30,000/- is also sanctioned as working capital for the Dyeing and Finishing section, The Comptroller is requested to place the sum of Rs. 30,000/- at the disposal of the Director of Industries and Commerce and take necessary action in consultation with him for the proper maintenance of accounts.
